MENUS

Problem

When I was designing these menus, I faced a problem of having a lot of items and ending up with too much text.

Solution

I used clear fonts and spaced everything out well. I made sure the text color is very visible enough against the background color.

Goals

My goal for designing the menus was to make them look appealing while also easy to read.

FRONT BOOK COVERS

I had a lot of fun while designing book covers and my aim was to create a visually appealing and engaging design that captures the essence of the book.

THE LIFE OF LIAM PAYNE

Deirdre Idah

"The most valuable lessons in life cannot be taught, they must be experienced."
Payne once said.

A photograph of a woman from the waist down, wearing a purple floral dress with a ruffled hem and a belt. She is holding a bunch of orange flowers in her left hand. Her right arm is bent, with her hand resting against her hip. She is wearing pink sandals. The background is a blurred outdoor setting with greenery.

WHO SAW MY SOUL

“Who Saw My Soul” is a haunting exploration of the unseen -the moments, connections, and the truths that linger just beyond perception.

FLYERS

Problem

The biggest problem I faced was low-quality images which made the flyers look unprofessional. I also faced a problem of picking fonts.

Solution

I used bold, easy-to-read fonts for the main headlines and simpler fonts for the smaller details. I used high resolution images for my images.

Goal

I was aiming at designing a flyer that clearly shares important information, grabs attention but still looks calm and professional.

NEWSLETTERS

Problem

My main problem was organizing the images, dates and articles. It was tricky to make everything fit without looking packed.

Solution

I decided to divide my newsletters so that I could organize content neatly and keep the layout balanced.

Goal

I was creating newsletters that look professional, easy to read and grab attention plus keeping readers engaged.

HACKERS STEAL \$17 MILLION FROM BANK OF UGANDA ACCOUNTS.

The loss of billions of shillings at the Bank of Uganda (BoU) may have been an insider job, contrary to earlier reports that the money was spirited away by hackers, investigations have shown.

Security agencies investigating the loss of the money are treating it as an “inside job” that was a result of collusion between officials at BoU, Ministry of Finance’s Treasury department and the Accountant General’s office.

The narrowing down of the probe as an inside job, sources indicated, is also reinforced by findings of an independent audit sanctioned by BoU senior management last week.
